SELECTION AND AWARD CRITERIA

12. Selection criteria

Capacity-providing entities

An economic operator (i.e. candidate or tenderer) may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links it has with them. If the economic operator relies on other entities, it must in that case prove to the contracting authority that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality as the economic operator relying on them and must comply with the selection criteria for which the economic operator relies on them. **Furthermore, the data for this third entity for the relevant selection criterion should be included in a separate document**. Proof of the capacity will also have to be provided when requested by the contracting authority.

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the economic operator relies, become jointly and severally liable for the performance of the contract.

The following selection criteria will be applied to the tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole if not specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

1. **Economic and financial capacity of the tenderer (**based on item 3 of the tender form). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the **last three financial** years for which accounts have been closed.

The selection criteria for each tenderer are as follows:

- the average annual turnover of the tenderer must exceed 250.000 €

2) Professional capacity of the tenderer (based on items 4 of the tender form).

The reference period which will be taken into account will be the last three years preceding the submission deadline.

- at least **2** staff currently work for the tenderer in fields related to this contract (provision and/or training on high level laboratory equipment).
- the tenderer shall demonstrate that its key technical personnel responsible for the installation, commissioning, maintenance and user training of the proposed equipment have successfully completed technical training provided by the manufacturer of the proposed equipment.

  Evidence to be provided: Copies of valid training certificates issued by the manufacturer, or equivalent documentary evidence demonstrating successful completion of the manufacturer's technical training programme.

3) Technical capacity of tenderer (based on items 5 and 6 of the tender form). The reference period which will be taken into account will be **the last five** years preceding the submission deadline.

- the tenderer must have delivered similar supplies (Analytical laboratory equipment) under at least **2 contracts each** with a budget of **at least** 100.000€ which were implemented at any moment during the following period: 2021 to date.

This means that the contract the tenderer refers to could have been started at any time during the indicated period but it does not necessarily have to be completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to supply contracts completed within the reference period (although started earlier) or to supply contracts not yet completed. Only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (statement or certificate from the entity which awarded the contract, proof of payment) also detailing its value. If a tenderer has implemented the supply contract in a consortium, the percentage that the tenderer has successfully completed must be clear from the documentary evidence, together with a description of the nature of the supplies provided if the selection criteria relating to the pertinence of the experience have been used.

Previous experience which would have led to breach of contract and termination by a contracting authority shall not be used as reference.

14. How can I obtain the tender documents?

Tender dossier is available for download via the platform e-marchespublics.com (https://private.e-marchespublics.com – Reference **1171668).** Registration on this platform is **completely free of charge**. Tenders must be drawn up using only the standard tender form for supply contracts included in the tender dossier, the provisions and format of which must be strictly adhered to.

Tenderers may submit their questions by logging into the section dedicated to this tender procedure on the e-marchespublics.com platform, selecting the 'Question' tab before **14th August 2026 at 18:00**. Civipol has no obligation to provide clarification after this date.

Any clarifications to the tender documents will be notified and available for download via an email notification to all tenderers **who have downloaded the tender dossier via the platform (https://private.e-marchespublics.com –** Reference **1171668).**

Potential bidders who seek to arrange individual meetings with Civipol during the tender period may be excluded from the tender process.

15. Deadline for submission of tenders

24th August 2026 at 12h00 CET.

Any offer received after the deadline will not be considered.

16. Opening of tenders

Tenders will be opened online in public on **24th August 2026 at 14h00** Paris time by the committee appointed for this purpose. Minutes will be taken by the committee and will be available on request. Tenderers willing to participate in the online public opening should address their request to procurementEU4FAST@experts.civipol.fr so they can be invited.

Any attempt by a tenderer to influence the evaluation committee in the procedure for examining, clarifying, evaluating and comparing tenders or to obtain information on the conduct of the procedure or to influence Civipol in its decision on the award of the contract will result in the immediate rejection of the tender.

17. Language of the procedure

All written communications under this call for tenders must be in English.
